

## **PATIENT & MEDICAL TEAM CARE PACKAGES**

Let's join in encouraging our local healthcare workers and patients at UW Medical Center by sending cards or hand drawn pictures.

Currently patients are unable to receive visits from loved ones and staff is affected by that relational gap and lack of social support networks. Both patients and staff will be blessed by every touchpoint through a card or drawing. Bethany will provide small treats to accompany the notes to staff, to help bring them a smile. We hope the support of the Bethany community will be a sweet moment in their day!

The UW Medical Center has invited and approved these cards and pictures, planning to receive them on their units. The distribution of our cards and drawings will be guided by current research regarding protection of staff and patients from exposure to the virus, including length of time before distribution and sanitizing surfaces as applicable.

### **Safe Handling Tips:**

- Wash your hands before you start your card or drawing
- Wipe down the surface that you plan to work on
- Avoid touching your face, sneezing or coughing while working on your project
- Use self-adhering envelopes or a damp sponge to close envelopes (do not lick the envelopes)

### **Mail your cards and drawings to the main office:**

Bethany Community Church  
% Care Ministry  
8023 Greenlake Dr. N Seattle, WA 98103
